

Office Floor Standing Screen

Protect **YOURSELF** and **OTHERS!**

Create a 90° angle or join screens together in a row

by

DIAMOND GROUP 

Create your own modular screen system in the workplace with these Office Floor Standing Screens. These clear perspex screens are the ideal solution for the segregation of workstations to protect your employees and encourage social distancing in professional work environments.

These perspex screens are supplied separately as a Starter screen and an Extension screen, enabling you to join the screens together to create an extended row, or create a 90 degree angle with two screens.

Starter screens are 2005mm high x 1040mm wide and Extension screens are 2005mm high x 1025mm wide.

Freestanding feet allow the screens to be moved and relocated around the workplace easily.

Ideal for offices, receptions, schools, hotels, retail, warehouses, factories and many other working environments.

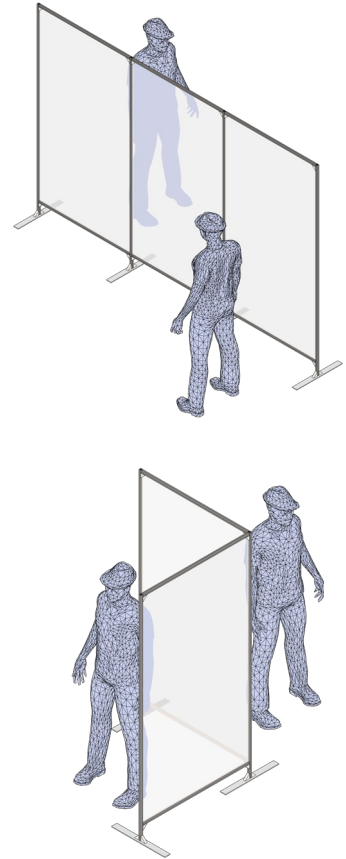

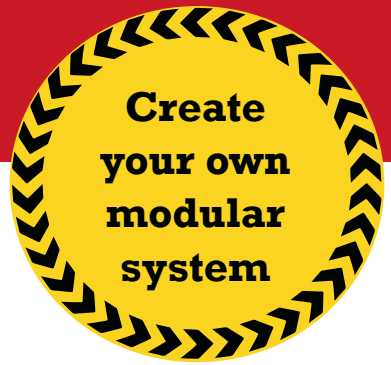

- Office Floor Standing Screens designed to reduce personal contact and protect employees
- Create your own modular system by joining screens together
- Made with a durable, non-porous and transparent perspex panel
- Starter screens and Extension screens available
- Freestanding feet
- Simple to move and relocate around the workplace
- Easy to maintain and clean
